Senior .Net Developer

Looking for a company that is fast paced, growing and cutting edge? Then come to work for the area's fastest growing IT consulting company. Located in downtown Washington DC, Enlightened has been recognized throughout the years for our outstanding performance.

Inc. 500 ranked Enlightened as the #264 fastest growing company in 2004.

In 2005, the Washington Chamber of Commerce named Enlightened as the Best Small Business in Washington.

In 2006 and 2007, Enlightened celebrated being a part of the Inner City 100 as one of America's fast growing companies located within the inner city of Washington DC.

Last year Enlightened was recognized as one of the top 100 Minority Business Enterprises in the Mid-Atlantic Region by the Center for Business Inclusion and Diversity.

The Enlightened environment fosters growth, creativity, and on time client-focused delivery. We are a culture of passionate innovators and believe in providing world class service. We reward success with competitive compensation and benefits. Enlightened is a company on the move and if you're a team player looking for growth and the opportunity to work with the latest technologies - then we would love to hear from you!

JOB PURPOSE:

The Senior .NET Developer function will be to help plan, design, develop, test, debug, and deploy highly-available applications using the .NET Framework 2.0/3.x and SQL Server technologies. An ideal candidate will be an extremely proficient .NET developer with experience in developing Web Services using WCF.

RESPONSIBILITIES:

- Provide a senior-level contribution to a team responsible for the design, development and implementation of critical business applications using the .NET Framework 2.0/3.x and SQL Server technologies
- Work with agile software lifecycle methodologies. Participate in the development of web services. Perform coding, debugging and testing.
- Review documents, perform code review, and unit testing
- Work in a collaborative development environment, providing assistance & technical guidance to less experienced team members
- Review documents, perform code review, and unit testing

QUALIFICATIONS:

- Bachelor's Degree in Computer Science, Information Technology, Engineering or a related field but equivalent experience will be considered
- 5+ years development experience with the Microsoft .NET platform, including VB.NET, ADO.NET, LINQ, and ASP.NET

Results Beyond Your Expectations
